CONSTRUCTION NOTICE

The Town of Reading and its contractor, SB General Contracting, Inc., will be replacing the Water Main on your street. This is part of the Town wide water distribution system improvement program. Construction is anticipated to begin on Minot Street on October 27, 2014, and continue as weather permits.

The Street will be closed during construction hours and detours are expected. Motorists are advised to seek alternate routes. During construction on street parking will be prohibited.

The roadway will be open to local residents however; excavation will limit access to driveways within the active construction area. Prior to construction, residents will be notified when the area in front of their house will be affected so that vehicles can be moved and not blocked in by construction.

During this project, on your day for collection of rubbish, all rubbish must be at the curb by 6:30 A.M. We also ask that no cars be parked on the street, to help facilitate this construction project.

The excavation will be filled in and the street made passable at the end of each day.

All residences will be notified prior to any planned water service shut downs with water service being restored as soon as possible.

If you need to contact the Water Division for any reason, including emergencies, please call the Water Division at 781-942-9092, Monday - Friday, between 7:00 AM and 3:00 PM. You can also call the Engineering Division with any other related questions at 781-942-9082, Monday – Thursday, between the hours of 7:00 AM and 5:30 PM. All other times, please call the Reading Police at 781-944-1212, and they will notify the Water Division emergency callman.

Thank you,

Town of Reading Water and Engineering Divisions
