Reading Ma 01867
Subject Washington St. Master Plan

The proposed realignment of the baseball field is nothing new the 1935 Town Report notes the baseball diamond will be relocated with home base near the south – west corner of the park . Home base of the original field was at the north east corner (Parker Tavern)

Early records indicate that baseball games at many levels High School , semi pro have been played at the park since the early 1900's Records also indicate that various levels of football games were also played in the same time period including the first night games under lights in 1931 The park also was the site of 4t/h of July carnivals . Reading High School baseball continued to be played there until the present Morton field was built in Birch Meadow , football until a new field was built at the Parker in the late 1930's .

From personal recollection many foul ball whet over the fence to Warren St and to the westerly side the site of greenhouses .

If people do not want to have foul balls in their yard do not buy a home next to a ball park .
