September is Survey Month!

Reading's Elder/Human Services Division wants to ensure its services and programs are meeting the needs of its older residents, both now and in the future. The Town is asking residents to participate in a community survey which examines the use of and satisfaction with the current services offered, and will **help determine what services should be priorities for the future**. The survey is available to Town residents at the following web address:

<https://www.surveymonkey.com/r/readingcommsurvey2015>

Paper copies are also available at the Pleasant Street Center, Town Hall and the Library and paper responses can be submitted at those locations. The survey will also be available at Town events, such as the Fall Street Fair which is taking place on September 13th. Town residents have until September 25th to respond.
