6.3.1	<u>Applicability</u>	7.1	<u>Overview</u>	
	This bylaw shall not apply to uses or structures lawfully in existence or lawfully begun, or to a building or Special Permit issued before the first publication of notice of the public hearing required by G.L. c. 40A, s. 5 at which this bylaw, or any relevant part thereof, was adopted. No modification of a lawfully existing nonconforming use or structure is allowed except as authorized hereunder.		<p>Nonconforming Lots, Uses, Buildings and Structures shall be regulated as provided in Section 6 of Chapter 40A of the Massachusetts General Laws and as provided in the Zoning Bylaw.</p> <p>An "increase in the nonconforming nature of a building or structure" occurs when the change to the building or structure (1) extends the existing nonconformity or (2) creates a new nonconformity. An increase in the nonconforming nature of a building or structure will not result from replacement or repair, without undue delay, of a nonconforming portion thereof.</p> <p>"Alteration" of a nonconforming building or structure refers to alterations that provide for a substantially different purpose or for the same purpose in a substantially different manner or to a substantially greater extent.</p>	Clarified language as it relates to State Law. 6.3.2	<u>Nonconforming Uses</u>	7.2	<u>Nonconforming Uses</u>	
			Nonconforming Single or Two Family uses located in Business or Industrial districts, can be reconstructed, altered, extended, or structurally changed so long as the Building Inspector makes a determination that the nonconforming nature of the use is not increased. Other nonconforming uses may be extended upon a determination from the Building Inspector that such extensions are not substantial.	New language to protect nonconforming uses (located in business and industrial district) for when alterations are proposed. Now allow for a "as of right" for certain alteration, where before required a Special Permit.
	The Board of Appeals may grant a Special Permit to change or extend a nonconforming use only if it determines that such change or extension shall not be substantially more detrimental than the existing nonconforming use to the neighborhood. The following types of changes to nonconforming uses may be considered by the Board of Appeals:		Where the nonconforming nature of a Single or Two Family use is increased or where other nonconforming uses are changed or substantially extended, the use may be reconstructed, altered, extended, or structurally changed only if the Zoning Board of Appeals determines that such reconstruction, alteration, extension, or structural change shall not be substantially more detrimental than the existing nonconforming use to the neighborhood and, on this basis, grants a Special Permit.	Modified the language to clarify the requirements for nonconforming single and two-family structures. Currently, the Board of Appeals may issue a Special Permit to extend the nonconforming use or change the use if they find the proposed use is less detrimental than the existing nonconforming use. This requirement is staying the same.
	a Modification or extension of the existing nonconforming use;		Once a nonconforming use is changed to a conforming use it may not revert to a nonconforming use.	
	b Change from one nonconforming use to another, less detrimental, nonconforming use. Once a nonconforming use is changed to a conforming use, there is no authority to allow the property to revert to a nonconforming use.
