

**Legend**

	Town Boundary		Reading Hydrography
	Wet Area		Stream
	Forested Wet Area		Connector
	Open Water		Culvert
	Shallow Marsh		Ditch
	Deep Marsh		Dam
	Shrub Swamp		Floodwall
	Wooded Swamp		River, Pond
			Retention Basin
			Parcel

# WETLAND MAP

## TOWN OF READING MASSACHUSETTS

Map by Town of Reading 2/10/10.  
 Parcels current as of 1/1/09.  
 Planimetric and hydrographic features and Reading wet areas were digitized from 2008 aerial photos. Wet areas were interpreted by photogrametrists, not by wetlands scientists. Contours and DEP wetlands were used as aids for wet area interpretation. The smallest wet area captured is about 2,400 sf (.06 acres).

DEP wetlands are from MassGIS. The wetlands were interpreted from 1:12,000 scale, stereo color-infrared (CIR) photography by staff at UMASS Amherst. The photography was captured in 1990. The smallest wetland captured is about 7,600 sf (.17 acres).

Data are for planning purposes only. Wetlands boundary determination for purposes regulated under the Reading Wetlands Bylaw and/or MA Wetlands Protection Act must use relevant procedures and criteria.
