

Existing Utilities and Infrastructure

The following information is provided to satisfy a requirement of Section 2.0. regarding existing utilities and infrastructure.

Water – Public Water:

There is an existing water main located within the right of way of Lakeview Avenue that extends along the project parcel (Lot B) to a hydrant just beyond the intersection of Eaton Street. This water is connected to a water main located on Eaton Street which continues beyond the project parcel located on Eaton St (Lot A).

Wastewater – Public Sewer:

An existing sewer main runs along Lakeview Avenue and terminates several feet beyond the lot line extension of the project lot A. There is no sewer main located within Eaton St.
